asona

Top: Asona Triton Image™ digitally printed bespoke composite soft absorber ceiling panels with timber moulding cover batten.

This charming wine bar on Auckland's chiche Richmond Rd fitted out in the European style has managed the reverberant and back ground noise problem by acoustically treating the ceiling with 25 x 865 x 1860 Asona Triton Image soft fibre acoustical panels. The printed image used was from an original pressed tin ceiling panel rescued from a Waikato pub by the interior designer, colour and sized were edited to fit the design and existing villa module. Manufactured and installed by Asona Ltd, Tel: 09 525 6575, www.asona.co.nz
