R 1.15 m²°C/W

Warranty:

15 year limited warranty against manufacturing defect, extendable to 30 years when registered for Asona's Renew and Reuse program.

Weight:

2 kg/m²

Installation:

Shall not commence until the building is watertight and dry. This product is designed to be mounted directly, suspended or laid into a two-way exposed grid system and installed to manufacturer's and AS/NZS 2785:2020 Standard's requirements. Panels are not to support any weight and equipment shall be independently supported. Hold down clips may be required in areas of wind uplift, and/or air grilles used to balance air pressure. Glue fix method; apply construction adhesive liberally to the back of panel and press firmly to clean, dust free substrate. Support edge of panels with Channel, T bar, Top Hat or timber battens. Suspended type systems requiring seismic design may require a suitably qualified engineer. Care shall be taken when handling panels to avoid damage.
